

## PETRO 3003 Aircraft Refuelling 4.0

The most efficient OnTruck equipment in the world

# PETRO 3003 Aircraft Refuelling 4.0

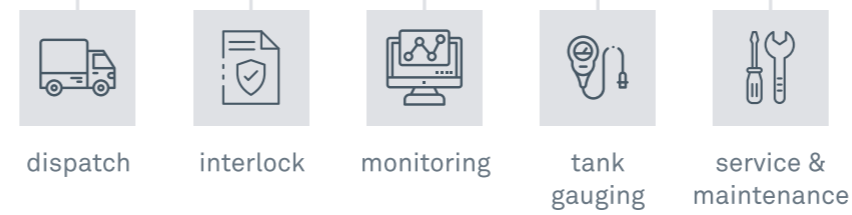

## W&M APPROVED

## SAF

## CLOUD BASED

From a standard measuring unit to a complete all-in-one dispatch solution that will guarantee the ultimate on-site support.

PETRODAT Aircraft Refuelling is a combination of three features measurement, data transfer, and OnBoard computer into one coherent system. Together, they form a highly efficient OnTruck operation for aircraft refuellers and dispensers in hazardous areas.

### OnBoard computer

- Linux operating system
- 3 month data base
- Central service and update functionality via GPRS modem
- Individual design, interactive display

### Message transmission system

- Cloud data transmission via GPRS/UMTS modem
- Online connection IP based, static IP addressable

### Electronic measurement system

- Approved measuring unit by W&M (e.g. MID)
- Up to four measuring units adoptable in one PETRO 3003 system
- Optional temperature compensation

### BARTEC in-house development

- BARTEC Turbine
- BARTEC Dipstick
- BARTEC Software

### Commercial invoice

- Ticket printer
- Online Invoicing System
- Customizable invoice design

### Peripheral equipment

- Interlock
- Water sensor
- Δ P ...
